

At Taseko Mines, we're proud to call British Columbia our home. We are a mining exploration, development and production company focused on creating wealth through the growth and development of our current assets, as well as the acquisition of other promising projects. Our assets include the Gibraltar copper-molybdenum mine, the New Prosperity gold-copper project, and the Harmony Gold and Aley Niobium prospects.

We are looking for enthusiastic employees who share our vision for long-term, responsible growth in this province. That's where you come in...

Recent growth in the company has created an opening in our Vancouver Corporate Office for the following position:

SENIOR MINE ENGINEER

Position Summary:

Reporting directly to the Manager, Mine Engineering, the Senior Mine Engineers role combines a mix of operations support, project planning, project management, and acquisition evaluation. This role is for a self-motivated, conscientious, productive, creative mining professional who has significant engineering and operations experience and has a reputation for producing first class mine plans.

Specific Duties and Responsibilities include but are not limited to:

- Develop optimized medium term and life of mine designs, including scheduling, cost estimating, and communicating the result of this work to the corporate team.
- Assume a project management role for some aspects of mine design and development components, evaluating consultant proposals and coordinating deliverables.
- Capable of completing consultant proposals and coordinating deliverables.
- Capable of completing tasks in a timely, cost efficient, safe and environmentally friendly manner.
- Aid in the assessment of potential acquisitions of other mining projects.
- Occasionally travel to mine site(s) for technical support.

Qualifications

- Degree in Mining or a related discipline with 5 – 10 years experience in open pit mining engineering, preferably with copper and gold, with at least 3 years mine planning and operations experience.
- Registered professional Engineer.
- Familiar with geotechnical considerations in pit, tailings, and dump design.
- Familiarity with underground mine design and operations is an asset.

- Strong computer skills with Vulcan, Minesight, Whittle, AutoCad, mine planning software, and MS Office.
- Accomplished written, verbal, and group presentation skills.

Compensation:

Taseko offers an excellent benefit package which includes competitive salary, Registered Retirement Savings Plan and relocation to Vancouver. For further information on Taseko Mines Limited visit www.tasekomines.com.

Qualified applicants, eligible to work in Canada, are invited to explore this opportunity by submitting a cover letter and resume via E-mail in confidence to: recruit@tkomines.com. Please be sure to quote the position you are applying to in the subject line.

We thank all candidates who express interest; however, only those selected for an interview will be contacted. Your application to this posting is deemed to be consent to the collection, use and necessary disclosure of personal information for the purposes of recruitment. Taseko Mines Limited respects the privacy of all applicants and the confidentiality of personal information and we will retain this information for a period of six months.
