

Gibraltar Mine: A Rock-Solid Foundation for Career Growth

At Taseko Mines, we're proud to call British Columbia our home. We are looking for enthusiastic employees who share our vision for long-term, responsible growth in this province.

Joining our Gibraltar Mine team makes you part of Canada's proud mining heritage. The Gibraltar copper-molybdenum mine is a cornerstone of the regional economy and an example of great Canadian mining in action. Located in the heart of BC's stunning Cariboo region, Gibraltar is approximately 60 km north of Williams Lake. It is the second largest open pit copper mine in Canada.

A sustainable mining operation with a 27 year mine life, Gibraltar is undergoing a significant multi-phase expansion taking our daily milling throughput to 85,000 tons per day and we're looking for talented candidates to help us facilitate this. That's where you come in...

We currently have a full time opportunity at the Gibraltar Mine at McLeese Lake, BC

SENIOR MILL METALLURGIST

Position Summary:

Reporting to the Chief Metallurgist, the Senior Mill Metallurgist is responsible for implementing processes and methods designed to optimize the extraction of copper and molybdenum from ore. This is accomplished by supervising a group of metallurgical personnel so that they function as a cohesive, coordinated, goal-directed unit.

Specific Duties and Responsibilities include but are not limited to:

- Maintaining metallurgical efficiency and quality control in crushing, grinding, flotation and SXEW
- Ensuring the accurate and timely delivery of assays to the mine and mill
- Employing metallurgical and assay personnel and equipment to maximize department effectiveness
- Coordinating the investigation and resolution of process problems
- Managing the execution of department generated mill capital projects
- Overseeing the daily and month end metallurgical balances
- Generating monthly reports on metallurgical section, mill and SXEW performance
- Recommends staffing requirements and participates in the hiring process

Qualifications

- Degree in Metallurgical or chemical engineering with a minimum of 4 years experience in base metals recovery processes
- Registered professional engineer
- Strong supervisory and team building skills
- Accomplished written, verbal and group presentation skills
- Strong computer skills with MS Office experience

Compensation

Gibraltar offers an excellent benefit package which includes competitive salary, a Registered Retirement Savings Plan and relocation assistance to Williams Lake.

Qualified applicants, eligible to work in Canada, are invited to explore this opportunity by submitting a cover letter and detailed resume outlining your qualifications and experience, in confidence, by email to: recruit@tkomines.com or fax to 250-392-3121.

Visit us at www.tasekomines.com to learn more about our New Prosperity, Aley and Harmony projects.

We thank all candidates who express interest; however only those selected for an interview will be contacted. Your application to this posting is deemed to be consent to the collection, use and necessary disclosure of personal information for the purposes of recruitment. Gibraltar Mines respects the privacy of all applicants and the confidentiality of personal information and we will retain this information for a period of six months.
